

POLE Pulsar Eiffel Basic mounting pole

For a Wallbox ABL Pulsar

The POLE Pulsar Eiffel Basic mounting pole is used for outdoor installation of a separately available Wallbox ABL Pulsar on a concrete foundation. It is especially recommended for installation in enclosed car parks on private properties and residential complexes. To ensure a harmonious overall appearance, the aluminium body and the stainless sheet steel base plate are colour-coordinated with the Wallbox ABL Pulsar, which is available separately. The plug holder supplied with the charging station can be mounted on the front to secure the charging connector. The Pulsar Eiffel Basic weather shield, which protects the charging station from environmental conditions, is also available as an optional accessory.

General information

Model	Mounting pole for a Wallbox ABL Pulsar
Manufacturer number	PED-EIFBS-MONO
Product number	100000448
EAN number	8436575278193
Commodity code	85381000
Packaging unit (PU)	1 unit
Packaging dimensions (H×W×D)	Approx. 1,430 × 220 × 135 mm
Weight of packaging unit	Approx. 15 kg
Items supplied	POLE Pulsar Eiffel Basic mounting pole, installation instructions, installation kit

Housing
